

# Anthony Battaglia Healthcare Simulation Advancement Scholarship

---

## Purpose:

- Support individuals committed to driving innovation and excellence in healthcare simulation.
- Provide financial assistance to professionals, educators, and students passionate about improving healthcare education, patient safety, and training through simulation technologies and methodologies.
- Opportunity to engage with industry experts, expand knowledge, and explore the latest advancements in the field.
- Identify professionals or students in academic or professional settings who may be financially unable to attend the conference without financial support.

## Coverage:

- Costs associated with attending the INACSL annual simulation conference. i.e., conference registration, lodging, travel, etc.

## Applicants Encouraged to Apply:

- A member of INACSL in good standing.
- Those who have not previously attended the conference due to lack of institutional support or funding.
- Individuals facing challenges related to international travel.
- Individuals with limited resources.
- Professionals in practice or academic settings or students in healthcare *education*-related programs.

## Application Process:

- Submit a completed [application form here](#).
- Applications must be submitted by January 17, 2025.
